UNIVERSITY

COME – CO-PLANNING URBAN MOBILITIES IN EUROPE

**Adaptive and collaborative planning for
European urban hubs of mobility**

**General Programme
October 5- December 5, 2023**

PRESENTATION OF THE INITIATIVE

The **BIP COME** is a programme organised within the **Erasmus+ framework, with a blended format** (virtual sessions & physical mobility) including academics from at three member-universities (University of Bergamo, Université Lumière Lyon2 and Dalarna University) to ensure transnational participation.

The programme is shared by **5 Master's and 1 Bachelor's Degree** of the three universities:

University of Bergamo

- LM PMTS - *Planning and Management of Tourism Systems*
- LM GEOU - *Geourbanistica*

Université Lumière Lyon2

- M2 - *Master en Tourisme*
- M2 - *Master Villes et environnements urbains*

Dalarna University

- Master in *Tourism Destination Development*
- Bachelor in *International Tourism Management*

The BIP involves 29 students: 19 students who travel to Italy for training and other 10 students from the University of Bergamo which has applied for organisational support funds for the BIP. There are **7 professors involved** from the three universities and they have adopted a transdisciplinary approach, as they teach in different courses and belong to different disciplines. A team of **6 research collaborators** of Imago Mundi Lab at the University of Bergamo is actively involved in tutorship and support to teaching activities.

The **physical mobility** activity of the BIP is 5 days (23-27 October 2023) and professors of the three universities teach together online and in presence from October 5th to December 5th.

The **BIP awards 6 ECTS credits** corresponding to a module in the study plan identified for the recognized credits:

For students enrolled in PMTS these courses will be recognized:

- a) curriculum Environmental and digital strategies: Environment and sustainable tourism (1st year) or Geotracking and webmapping for tourism (2nd year);
- b) curriculum Global issues in tourism management: Environment and sustainable tourism (1st year) or a free choice.

For students enrolled in Geourbanistica these courses will be recognized:

Teoria del Progetto territoriale (1st year) or Rigenerazione e recupero delle aree dismesse/Protezione dell'ambiente e tutela del paesaggio (2nd year).

Admitted students will be informed about the details of the recognition.

Topics

The programme tries to answer the need of interdisciplinary competences in adaptive and creative planning related to European urban hubs of mobility and flows seen in a polycentric and multiscale perspective.

For this reason, professor of different disciplines of the three Universities face these topics:

- Urbanities/Urbanocene/Polycentric and multiscale approaches to urbanities
- Urban mobility and flows
- Urban challenges related to mobility flows: overtourism, gentrification, intermodal mobility planning, hyperplaces, ...
- Inhabitants' dynamics: residency, tourisms, migrations, commuting, ...
- Processes for sustainable cities' development: co-creative and collaborative governance, adaptive planning, urban regeneration

Teaching methods

The Programme alternates different methods during online and in presence lectures and labs, connecting:

- **Challenge based learning:** challenges identified with local stakeholders
- **Collaborative learning:** adopting student-oriented approaches, instant pools, etc.
- **Project-works:** students' work in interdisciplinary thematic teams
- **Digital Labs:** practical competences about digital mapping, video-making.

General Programme

1st week of October October 5 12am-3pm	<i>kick-off online seminar</i> Click here to join the meeting	3 h	<i>introductory meeting by the three Universities</i>
3rd week of October October 18 3-6pm	Directed Work Click here to join the meeting	3 h	<i>Group Work With tutors</i>
October 23-27	<i>Kick-off meeting in Bergamo</i>	5 days	seminars Labs and Group Work fieldwork
1st week of November November 8 3-6pm	Directed Work Click here to join the meeting	3 h	<i>Group Work With tutors</i>
3rd week of November November 22 3-6pm	Directed Work Click here to join the meeting	3 h	<i>Group Work With tutors</i>
1st week of December December 5 3-6pm	Final Joint online seminar Click here to join the meeting	3 h	<i>Final presentation of Group Works</i>

Alessandra Ghisalberti – alessandra.ghisalberti@unibg.it

GROUP WORK: SCHEDULE AND ORGANISATION

Objectives

The main objective of the Group Work is to **study mobility with an interdisciplinary and interactive approach**, combining tourism analysis and planning competences.

Each group will concentrate on a specific topic and urban context of Bergamo, choosing from the case studies visited:

- International flows and overtourism in the destination (i.e. Città Alta)
- accessibility of biodiversity and protected areas in Bergamo (i.e. Astino Valley of biodiversity within the Regional Park of the Hills of Bergamo)
- multi-scale mobility in Bergamo hyper-places (i.e. Il Caravaggio International Airport and Oriocenter)
- the connection of public transportation in Bergamo (i.e. TEB/ATB)
- intermodal mobility infrastructures connecting urban regeneration projects (i.e. Chorus Life)

Starting from the specific characteristics of each context, students will work on **a project on mobility**, linking together sustainable aspects of movement in both its **urban planning** and **tourism-related aspects**.

Thanks to the lectures and seminars provided by Professors of different Universities and disciplines, together with the challenges suggested by the stakeholders, students will be able to include in their projects conceptual analysis about the most important topics that can affect mobility and tourism policies in the contemporary world.

Methodology

The theme of co-planning urban mobilities will be studied following a modular approach: the theoretical framework and the reference bibliography given by the lectures; seminars will be the background for the conceptual reflections and practical-experiential activities carried out during both in-presence and distance work.

The first phase is the **analysis of the Bergamo territory** as the main case study of each group: this will be possible thanks to the material provided in advance by tutors and thanks to the field trips and the meeting with the local stakeholders. During the activities outdoors students can **collect multimedia material** that can be used for follow-up activities and can be included in the final works.

The second phase is **planning** and will concern a specific example among the case studies analysed during the fieldtrips. Students are encouraged to reflect on critical issues and potentials, **bringing international examples and making a comparative analysis with their home cities**. A project proposal should be the result of the work.

Tools

The Group Work is organised with blended methods, including virtual tools and innovative experiential labs in presence, in particular:

- **collaborative tools**, on Microsoft Teams and other platforms, will be used during directed work online. Through brainstorming and collaboration work, students will be able to simulate a collaborative learning experience and a digital participation system.
- **digital lab** on cartography: the Maplab will focus on the preparation of a map about mobility and in line with the group's area of study. The software will be decided according to the students' initial skills.
- **collection of multimedia material** for the creation of reportages, videos and reels.

- **creative lab:** starting from visual and sound stimuli, students can create an artistic representation related to the theme of their group in a free and personalised format. This activity allows the theme under study to be analysed from an emotional and creative point of view.
- **experiential learning** through an embodied cognition activity: through physical interaction, movement and the support of sensory material, students will be stimulated to investigate their topic of analysis in a more experiential way.

Groups organisation

Students will be organised into **5 groups** composed by one or two students for each Master's Degree. The groups will be created by the tutors following these criteria:

- university of origin;
- educational background;
- study interests;
- IT skills.

The different geographical and educational backgrounds of the students will facilitate a multidisciplinary and cross-cultural approach to the topics covered.

Each group will choose a representative as spokesperson.

Results

Work format:

At the end of the Group work students could present three works:

1. **power-point presentation:** a group power-point presentation about their topic of analysis
 - first version (**October 27, 2023**): at least 5 slides (title, objective, bibliography, methodology, expected results)
 - final version: (**December 5, 2023**): presentation of 12 slides which has to include the analysis and work results
2. **activity report:** individual paper of at least 20 pages complete with cover page, table of contents, pictures (cartography, photographs, drawings) notes, and bibliography about the theme. **Deadline: December 20, 2023**
3. **group portfolio:** it can include the most representative products made by the group (photographs, drawings, audio files, reels, videos, etc.). It could be useful to upload the final works in the folder "groups portfolio" in Microsoft Teams.

The works could have this structure:

- Research question (issues and objectives)
- Thematic framework (literature review)
- Methodology and context of analysis
- Field analysis of Bergamo and comparative analysis with Dalarna and Lyon
- Results (criticality, suggestion, project hypothesis)

The final work can have a creative project narrative format, including personal representation, visual materials and multimedia illustrations.

Evaluation criteria

Every Master's course involved in the BIP Programme will evaluate the final works according to internal criteria.

For the students of the University of Bergamo, both of Geourbanistica and Planning and Management of Tourism Systems, the final works will be evaluated with the following criteria: consistency with the topics covered, completeness of the information, quality of analysis, creativity. The final products include: bibliographical references, comparisons between cities, cartographical elaboration, personal reflection about the experience.

AGENDA

5/10: 12am-3pm KICK-OFF ONLINE SEMINAR

- introductory meeting by the three Universities.
- presentation of the Group Work organisation and schedule.
- introduction of the Bergamo case study providing bibliography, data and case studies.

For the Directed Work on October 18, 2023 students could prepare a video presentation to introduce themselves. It should include:

- name, surname, city, Master's course
- educational background
- study interests
- specific IT and GIS skills.

It could be useful to upload the presentation videos into the folder "students' presentations" in Microsoft Teams.

18/10 : 3pm-6pm SECOND ONLINE SEMINAR

Directed work

Presentation of the structure and objectives of the Group work. In particular:

3pm-3.30pm: presentation of the group work - introduction to the methods and agenda.

3.30pm-4.30pm: presentation of students - presentation of the videos prepared by the students. These materials will be useful for getting initial information on the students and to the tutors to create the groups).

4.30pm-4.45pm: break

4.45pm: collaborative activity - brainstorming on the main theme of the Programme using collaborative platforms (i.e. Slido, Mural, Slack, Teams, Jamboard) and creation of conceptual maps on the topics that will be covered by lectures and seminars during the mobility week in Bergamo. These maps will be part of the starting material for the group work on October 23, 2023.

→ ice-breaking moment on different topics

Activity 1: *Ideas and expectations about the city of Bergamo:*

Questions:

- what is the first word that comes to your mind about Bergamo?
- mobility in a medium european city: which opportunities?
- mobility in a medium european city: which threats?

Activity 2: *mobility challenges in mondialisation:*

Questions:

- what does it mean mobility in the mondialisation? Why people move?
- which are the opportunities given by mondialisation?
- and the threats?

Activity 3: *Co-planning urban mobility: is it possible?*

Questions:

- what is the first word that comes to your mind about co-planning and participation?
- do you know a co-planning project on mobility?
- have you ever participated in a co-planning urban project?

Activity 4: *First step into Bergamo mobility:* starting from a picture related to place and events of mobility, students answer:

- what is your first impression?
- what are your feelings about the image (memories, personal experiences, suggestions)?
- do you find some similarities with your own town?

After the activities, tutors will collect the answers and prepare them as starting materials for the Group work on October 23, 2023.

DURING THE MOBILITY IN BERGAMO

23/10: 3pm-6pm

Group work - Salvecchio room 7

Ready, set... go: definition of final groups and start of work

3pm-4pm: creation of the 5 groups and choice of the spokesperson; each group is given one of five areas of study. Each group is given a starting bibliography and the conceptual maps done during the collaborative activity on October 18, 2023. The maps will be useful to provide some initial ideas about one's own topic and represent a first example of cross-cultural and interdisciplinary meaning-making, as it resulted from the collaborative work of all students on each topic.

4pm-4.15pm: break

4.15pm: definition of the group's work specific topic and objectives.

24/10: 3pm-6pm

Group work - Astino

Feel the city: embodied cognition experience and group work

3pm-3.30pm: updates from the spokespersons on the work of the groups.

3.30pm-4.30pm: experiential learning and lab of embodied cognition – through different immersion activities and using body language, students will be led to reflect on their study topics through an emotional and sensory approach.

- **Activity 1: The movement of music:** different mobility-related soundtracks are proposed (metro noise, traffic, bicycle, car, etc.). The students close their eyes and move freely in the space following the emotion given by the music/ and reflect about the emotion given by the music.
- **Activity 2: What is accessible mobility?** Students move freely in the space keeping eyes closed trying to reflect about accessibility and inclusiveness.
- **Activity 3: Facing disability and diversities in mobility:** some students have eye patches and others with earplugs. On the soundtrack they can move and experience a person with a disability dealing with mobility.
- **Activity 4 (optional):** students think of a smell (such as, for example, rain on asphalt, the smell of take-away pizza, smoke from vehicle exhausts, grass in public spaces, etc.) and say what emotions it arouses in them.

Discussion and feedback on the activities.

4.30-4.45pm: break

4.45pm: group work

25/10: pm-6pm

Group work - Salvecchio room 7

Make your map! Territorial representation for COME

3pm-3.30pm: updates from the spokesperson on the work of the group

3.30pm-4.30pm: MapLab – digital tools and open GIS software will be used to acquire new technical competences in the cartographic representation. After a brief introduction to GIS, operating principles of the software and the main databases for downloading information will

then be explained. Based on their focus area, students will download a dataset and create a map.

Material: the software used will be defined according to the starting IT skills of the students (QGIS, Google Earth,...).

4.30pm-4.45pm: break

4.45pm: group work

26/10: 3pm-6pm

Group work - Salvecchio room D11

EARTH without ART is just EH

3pm-3.30pm: updates from the spokesperson on the work of the group

3.30pm-4.30pm: **creative lab** as another way to represent urban mobility - students can be creative and try to represent their topic in an alternative way (i.e. drawing, writing a story, collecting pictures or sounds, ...).

Material: sheets and stationery (from Imago Mundi Lab), students can bring any kind of material they consider useful for a creative workshop (newspapers, camera, ...).

4.30-4.45pm: break

4.45pm: group work

27/10: 9am

Group work - Salvecchio room 7

Group work mid-term presentation

AFTER THE MOBILITY

8/11 : 3pm - 6pm THIRD ONLINE SEMINAR

Directed work online

PLACetelling: communicate the territory

3pm-3.45pm: updates on the group work, feedback and discussion.

3.45pm-4.45pm: **communication lab** - starting from the materials collected in Bergamo (pictures, videos) students could create an efficient way to communicate with people and explain their topics (videos, reels or Instagram stories, infographic, podcast).

4.45pm-5pm: break

5pm-6pm: presentations of the results

22/11 : 3pm - 6pm FOURTH ONLINE SEMINAR

Directed work online

3pm-4pm: updates on the group work, feedback and discussion.

4pm-5pm: meeting with Professors, presentations of the works and feedback.

5/12 : 3pm - 6pm FINAL JOINT ONLINE SEMINAR

Final presentation of Group Work

Programme of the Kick-off meeting in Bergamo

October 23-27, 2023

**Monday
October 23**
Room 7
Salvecchio
University
of Bergamo

9:00am **Welcome and greetings** ([Click here to join the meeting](#))

Flaminia Nicora, Vice-chancellor for international affairs University of Bergamo

Susanne Corrigox, Coordinator of International Affairs Dalarna University

Jim Walker, Vice President of International Relations Université Lyon2

Rossana Bonadei, Director of the Department of Foreign Languages, Literatures and Cultures, University of Bergamo

Fulvio Adobati, Director Centro Studi sul Territorio "Lelio Pagani", University of Bergamo

10:00am **Introduction – Intertwining mobility studies between geo-urban and tourism planning** by **Federica Burini**, University of Bergamo

10:30am **Seminar 1 - Urban challenges related to mobility flows**
moderated by **Alessandra Ghisalberti**, University of Bergamo

Ioanna Farsari, Dalarna University, *Contested development, contested meanings, contested growth: Stakeholders' sustainability discourses of a new airport in rural Sweden*

Tara Duncan, Dalarna University, *Noticing precarity differently: Mobilities and tourism work in urban centres*

Christian Montès, Université Lyon2, *Urban change in London: TOD policies and gentrification processes. The case of Elephant and Castle*

Anthony Simon, Université Lyon2, *Lyon metropolis in motion. Towards sustainable and responsible urban tourism*

Etienne Faugier, Université Lyon2, *From transport to mobility tourism: history, case study and issues*

12:30am **Discussion** with **Emanuele Garda**, **Cinzia Spinzi**, **Marco Tononi**, University of Bergamo

1:00-3:00pm *light lunch*

3:00-6:00pm **Group work** organised by **Marianna Bertocchi** with Imago Mundi Lab Team

**Tuesday
October 24**

Room of
stones,
Astino
Complex

9:30am *Fieldtrip Part 1 - **Intermodal experience between Città Bassa - Città Alta and Astino Valley of Biodiversity***

*Departure from Funicular in Città Bassa to Città Alta, walk from Colle Aperto to the Astino Complex introduced by **Riccardo Rao**, University of Bergamo*

1:00-2:00pm *light lunch meeting in Astino*

2:00pm **Welcome and greetings**

Fabio Bombardieri, President of MIA Foundation

Sergio Cavalieri, Rector of the University of Bergamo

Seminar 2 - Sustainable mobility, urban challenges and multilevel governance

moderated by **Federica Burini**, University of Bergamo

Giovanni Sanga, SACBO - "Il Caravaggio" International Airport

Liliana Donato, ATB (Bergamo Transport Agency)

Gianni Scarfone TEB (Electric Tram Bergamo)

Christophe Sanchez, CEO VisitBergamo

Paolo Malighetti, Coordinator of the project MOST, University of Bergamo

Discussion moderated by **Alessandra Ghisalberti**, University of Bergamo with **Stefano Andreani**, Harvard University, **Andrew Holden**, Goldsmiths University of London, **Ioanna Farsari** and **Tara Duncan**, Dalarna University, **Christian Montès**, Université Lyon2, **Anthony Simon** and **Etienne Faugier**, Université Lyon2

4:00-6:00pm **Group work** organised by **Marianna Bertocchi** with Imago Mundi Lab Team

8:00pm **Social Dinner at "Il Circolino - Cooperativa Città Alta"**

**Wednesday
October 25**

9:00-10:00am **Introduction to the visit of regenerated areas along the TEB lines** with **Filippo Simonetti**, TEB [Room 2 Sant'Agostino, University of Bergamo]

10:00am *Fieldtrip Part 2 - **Visit of regenerated areas along the TEB lines** organised by **Elio Moschini**, TEB with **Gregorio Pezzoli**, University of Bergamo*

Departure from the Sant'Agostino Complex, walk down to the Art District, visit of the junction TEB1-TEB2, walk around Chorus Life

3:00-6:30pm **Map Lab and group work** by **Marta Rodeschini** with Imago Mundi Lab Team [Room 7 via Salvecchio, University of Bergamo]

**Thursday
October 26**

9:00am *Fieldtrip Part 3 - **The hyper-places and mobility in Bergamo: the airport and the Oriocenter mall** organised with **Alberto Cominassi**, SACBO and **Stefano Giorgi**, **Antonia Latino**, Oriocenter*

Departure from Bergamo train station, public bus and visit of the airport

Walk through Oriocenter pedestrian paths

3:00-6:30pm **Group work** by **Marianna Bertocchi** with Imago Mundi Lab Team [Room D11 via Salvecchio, University of Bergamo]

**Friday
October 27**

Room 3
Salvecchio
University
of Bergamo

9:00am **Students Groups work presentation**

by **Marco Tononi** and **Andrea Pozzi**, University of Bergamo ([Click here to join the meeting](#))

Discussion moderated by **Federica Burini** with **Stefano Zenoni**, Vice-chancellor for mobility and environment, Municipality of Bergamo and **Mario Paris**, **Marta Pantalone**, **Elena Bougleux**, University of Bergamo

11:30-12:00am **Conclusions and perspectives** moderated by **Alessandra Ghisalberti** with **Federica Burini**, **Tara Duncan**, **Ioanna Farsari**, **Etienne Faugier**, **Christian Montès**, **Anthony Simon**

Goodbye Aperitif

Scientific Committee:

Federica Burini, Tara Duncan, Ioanna Farsari, Etienne Faugier, Alessandra Ghisalberti, Christian Montès, Antony Simon

Realized with the support of the research collaborators of IMAGO MUNDI LAB:

Alice Bassanesi, Marianna Bertocchi, Elisa Consolandi, Mikel Magoni, Gregorio Pezzoli, Marta Rodeschini

Students participating in the project:

Diana Haydee Ayala Avellaneda, Bihan Banerjee, Eva Bouvet, Daisy Brignoli, Franziska Brucker, Mathilde Bruel, Léa Cacaci, Andrea Carissoli, Vivian Carreño Bakkeren, Matteo Ciatto, Soraya De Oliveira Corte Real, Laurie Fayard, Axel Follet-Trosset, Clotilde Formica, Martina Gritti, Serina Knappmann, Fabian Landström, Malène Lardon, Chloé Parize, Nicole Passoni, Segura Perrine, Louise Pierrel, Shelly Porretta, Vanessa Selva, Léa Seramondi, Patience Tropo, Olivia Trosseler, Elena Zanchetta, Anna Zandegiacomo Sampogna

FIELDTRIP EXPERIENCE

October 24, 2023 – Intermodal experience between Città Bassa – Città Alta and Astino Valley of Biodiversity

9:00am Departure from Funicular in Città Bassa to Città Alta, walk from Colle Aperto to the Astino Complex introduced by **Riccardo Rao**, University of Bergamo

October 25, 2023 - Visit of regenerated areas along the TEB lines

- 9:00am **Introduction to the visit of regenerated areas along the TEB lines** with **Filippo Simonetti**, TEB [Room 2 Sant'Agostino, University of Bergamo]
- 10:00am From the Sant'Agostino Complex of the University of Bergamo, walk down to Via Pignolo and stop at the terrace of the former Baroni College
Walk from the University of Bergamo through the Scaletta della Noca to the Art District (Carrara Academy and GAMeC)
Walk along Borgo Santa Caterina, one of the most characteristic *borghi* in Bergamo
Visit of the junction TEB1-TEB2
Walk to Chorus Life, a wide area undergoing regeneration
- 12:00am Way back to Città Alta through TEB1 and bus 1A

October 26, 2023 – The hyper-places and mobility in Bergamo: the airport and the Oriocenter mall

- 8:30am Departure from the bus station by bus 1-Airport (buses departing every 15 minutes; running time: 25 min approx.)
- 9:30am Arrival at the passenger terminal and meeting with **Alberto Cominassi**, SACBO Mura Venete conference room (first floor)
- 11:00am Walk from the airport to the mall through the pedestrian path
- 11:15am Arrival at the food court of the mall and meeting with **Stefano Giorgi** and **Antonia Latino**, Oriocenter
- 12:45am Free lunch at the food court
- 13:30am Return to Bergamo, Città Alta by bus 1A-Città Alta departing from Oriocenter (buses departing every 15 minutes; running time: 40 min approx.)
